

## ROBERT RUBINO, MD, FACOG

**D**r. Robert Rubino, a *New Jersey Monthly* Top Doctor for three consecutive years, leads a practice with the most advanced, non-invasive solutions to women's health issues. As a national expert on Her Option® Endometrial Cryoablation to eliminate heavy periods, he has prevented hundreds of women from undergoing hysterectomies with this simple, 15-minute in-office procedure. Dr. Rubino is also one of the most experienced doctors with Essure® tubal ligation, a 10-minute, in-office procedure for permanent contraception.

This year, Dr. Rubino was funded as a principal investigator in a national study for a new device that removes uterine fibroids. The procedure, again performed in the office, is dramatically shorter and less invasive than the traditional method. "I am enthusiastic about this research," he says. "It is rewarding to contribute to raising the standard of women's healthcare

and broaden my expertise in minimally invasive procedures that eliminate the risks of major surgery." He has created "Tomorrow's MD's," a mentoring program with the local high school to involve students in his medical research.

In practice since 1995, Dr. Rubino has a staff of the best medical talent available: Dr. Audrey Romero, one of New Jersey's few female, board-certified Urogynecologists; Dr. Lisa Abeshaus; Dr. Jacqueline Saitta; and Dr. Allan Kessel.

Keeping ahead of the healthcare industry, the office uses electronic medical records and offers a highly interactive web site with online appointments, virtual office consultations, and personal health records.

*HOSPITAL AFFILIATIONS: Saint Barnabas Medical Center, Livingston; Overlook Hospital, Summit.*
